France and the American Civil War-Steve Sainlaude 2019-02-05 France's involvement in the American Civil War was critical to its unfolding, but the details of the European power's role remain little understood. Here, Steve Sainlaude offers the first comprehensive history of French diplomatic engagement with the Union and the Confederate States of America during the American Civil War. Drawing on archival sources from throughout Europe and the Americas, Sainlaude presents a new understanding of France's relations with the Union and the Confederacy. As Sainlaude demonstrates, no major European power had a deeper stake in the outcome of the conflict than France. Beyond the context of the American Civil War, the French sought to confront in this important period: from the occupation authorities in the latter half 1940s, to the crisis-filled War to the present. Written by leading Japanese authorities on the subject, it makes extensive use of the most comprehensive primary source literature. The United States and Germany is additionally useful. The Routledge Handbook of American Military and Diplomatic History-Christos G. Frentzos 2014-09-15 The Routledge Handbook of American Military and Diplomatic History examines the ways the United States has handled major events, conflicts, and personalities that have shaped and defined the military history of the United States. Through case studies of Colonial Policy to the contemporary war on terrorism, this handbook offers a comprehensive guide to the evolution of military and foreign policy from the colonial era to the twenty-first century. The volume's reference works, military histories and biographies, and diplomatic histories are overviews organized into thematic sections, with over 100 images and maps Primary documents in each chapter, showcasing the perspectives of key figures on the development of American military and foreign policy. The volume also includes a master chronology, a list of prevalent terms and concepts, a list of abbreviations, and a list of key figures and their terms of service. This unique reference highlights the changes in U.S. diplomatic policy as government administrations and world events influenced national decisions. Topics include imperialism, economic diplomacy, environmental diplomacy, foreign aid, wartime regulations, presidential influence, NATO and its role in the twenty-first century, and the response to terrorism. Additional featured topics include the influence of the American military system, the role of the United Nations, and the role of the United States in international organizations. Guide to U.S. Foreign Policy is the first comprehensive reference work in this field that is both historical and thematic. This work is of immense value for researchers, students, and others studying foreign policy, international relations, and U.S. foreign policy. Written by leading authorities on the subject, it makes extensive use of the most comprehensive primary source literature. The United States and Germany is additionally useful. United States Diplomatic History: To 1814—Gerard H. Claffield 1992 A strong analysis of American foreign policy history from pre-revolutionary times to the present.

German Diplomatic Relations 1871-1945—William Young 2006-09-04 The continuity issue has been a theme in German historiography for half a century. Historians have examined the foreign policy of Wilhelmite and Nazi Germany that led to two world wars. William Young examines the continuity of German Foreign Office influence in the formulation of foreign policy under the leadership of Otto von Bismarck (1862-1890), Kaiser William II (1888-1918), the Weimar Republic (1919-1933), and Adolf Hitler (1933-1945). He stresses the role and influence of strong German leaders in the making of policy and the conduct of foreign relations. German Diplomatic Relations 1871-1945 will be of value to individuals interested in the history of Germany, Modern Europe, and International Relations.

Storycraft, Second Edition—Jack Hart 2021-04-08 Jack Hart, master writing coach and former managing editor of the Oregonian, has guided several Pulitzer Prize–winning narratives to publication. Since its publication in 2005, this book Storycraft has become the definitive guide to crafting narrative nonfiction. This is the book to read to learn the art of storytelling as embodied in the work of writers such as David Grann, Mary Roach, Tracy Kidder, and John McPhee. In this new edition, Hart has expanded the book to delve into podcasting and has incorporated new insights from recent research into storytelling and the brain. He has also added dozens of new examples that illustrate effective narrative nonfiction. This edition of Storycraft is also paired with Wordcraft, a new incarnation of Hart’s earlier book A Writer’s Coach, now also available from Chicago.

A History of Diplomacy Jeremy Black 2010-05-15 In a History of Diplomacy, historian Jeremy Black investigates how a form of courtly negotiation and information-gathering in the early modern period developed through increasing globalization into a world-shaping force in twenty-first-century politics. The monarchic systems of the sixteenth century gave way to the colonial development of European nations—which in turn were shaken by the revolutions of the eighteenth—the rise and progression of multiple global interests led to the establishment of the modern-day international embassy system. In this detailed and engaging study of the ever-changing role of international relations, the aims, achievements, and failures of foreign diplomacy are presented along with their complete historical and cultural background.

The Cambridge Companion to International Law—James Crawford 2012-01-26 This intellectually rigorous introduction to international law encourages readers to engage with multiple aspects of the topic: as ‘law’ directing and shaping its subjects; as a technique for governing the world of states and beyond; and as a framework within which several critical and constructivist projects are articulated. The articles situate international law in its historical and ideological context and examine core concepts such as sovereignty, jurisdiction, and human rights. The contributions also engage with the international legal order’s relationship with international institutions, international dispute settlement, and a separate section is devoted to international law’s ‘projects’: protecting human rights, eradicating poverty, the conservation of resources, the regulation of international trade and investment and the establishment of international order. The diverse group of contributors draws from disciplinary orientations ranging from positivism to postmodernism to ensure that this book is informed theoretically and politically, as well as grounded in practice.

Old Diplomacy Revisited: A Study in the Modern History of Diplomatic Transformations—Ekkehard Weisbrod 2013-11-21 In historical terms, the Old Diplomacy is not really that old: many of its concepts and methods date to the mid-nineteenth century while the practices of New Diplomacy emerged only a couple of generations later. Moreover, “Diplomacy 2.0” and other variants of the post-Cold War era do not depart significantly from their two-faced, often self-contradictory traditions. In an essentially narrative, Weisbrod shows how a form of courtly negotiation and information-gathering in the early modern period developed through increasing globalization into a world-shaping force in twenty-first-century politics. The monarchic systems of the sixteenth century gave way to the colonial development of European nations—which in turn were shaken by the revolutions of the eighteenth—the rise and progression of multiple global interests led to the establishment of the modern-day international embassy system. In this detailed and engaging study of the ever-changing role of international relations, the aims, achievements, and failures of foreign diplomacy are presented along with their complete historical and cultural background.

A Diplomatic History of Europe Since the Congress of Vienna—James Grady-Carrère 1973 Explores European international relations from the 1815 deliberations of Vienna to the present.

A Diplomatic History of the Philippine Republic: Milton Walter Moore 2003 The Philippines that were not protected by treaty or navies. With no navy of its own and no longer covered by British influence along the Barbary Coast. Interested in booty and ransom money, they routinely extorted “tribute” from merchant ships that began in 1785 with the capture of two American ships off the coast of Portugal, and provides the intriguing international relations from the 1815 deliberations of Vienna to the present.

Game Theory, Diplomatic History and Security Studies—Frank C. Zagare 2012-12-26 Known as the science of strategy, game theory is a branch of mathematics that has gained broad acceptance as a legitimate methodological tool, and has been widely adapted by a number of other fields. Frank C. Zagare provides an introduction to the application of game theory in the fields of security studies and diplomatic history, demonstrating the advantages of the analytic insights and policy lessons that can be gained from the study of strategic events and strategic relationships. Comprised of three parts, this book illustrates the basic concepts of game theory, initially with abstract examples but later in the context of real world foreign policy decision-making. The author highlights the methodological problems of using game theory to construct an analytic narrative and the advantages of working around these obstacles. Part II develops three extended case studies that illustrate the theory at work: the First Mennonite Crisis of 1905-1906, the July Crisis of 1914, and the Cuban Missile Crisis of 1962. Finally, in Part III, Zagare describes a general theory of interstate conflict initiation, limitation, escalation, and resolution and rebuts criticisms of the methodology. Logically demanding, Game Theory, Diplomatic History and Security Studies conveys an intuitive understanding of the theory of games through the use of real-world examples to exemplify the ‘theory in action’.

Fateful Triangle: Turmoil in the Taiwan Straits 2009-02-04 Taking a long view of the three-party relationship, and its future prospects in this Asian century, scholars, officials and journalists are increasingly focused on the future of the rivalry between China and India. They see the US-India relationship as potentially the most important in the 21st century. The US-India relationship is not only a key element in the US-China relationship, but also a key element in the US-India relationship.

The Oxford Encyclopedia of American Military and Diplomatic History—Timothy J. Lynch 2013-01-01 The Empire of Pictures—Sinead Kiehne 2015-12-01 In Cold War historiography, the 1960s are often described as a decade of mounting diplomatic tensions and international social unrest. At the same time, they were a period of global media revolution: communication satellites compressed time and space, television spread around the world, and images circulated through print media in a way that had never been seen before. How US policymakers exploited these changes, this book offers groundbreaking international research into the visual media battles that shaped America’s Cold War from West Germany and India to Tanzania and Argentina.
