London’s Roman City Wall Walk - Historic UK

From around 200 AD, the shape of London was defined by one single structure; it’s massive city wall. From Tower Hill in the East to Blackfriars Station in the West, the wall stretched for two miles around the ancient City of London. With only a few exceptions, the line of the wall remains.

Homegrown Treasures - Hunting For Gems In The UK | Gemporia

Aug 12, 2018 · Over the centuries, there have been a number of gold mines within our shores, and one of the most interesting is the Dolaucothi Gold Mine near Llanwrda, Wales. The Dolaucothi Estate to which the mine belongs is now owned by the National Trust, but historically the area was first mined for gold during the Bronze Age, and is known to have been
