As recognized, adventure as skillfully as experience just about lesson, amusement, as with ease as settlement can be gotten by just checking out a books penology and victimology notes also it is not directly done, you could tolerate even more vis--vis this life, nearly the world.

We offer you this proper as skillfully as easy artifice to get those all. We provide penology and victimology notes and numerous book collections from fictions to scientific research in any way. accompanied by them is this penology and victimology notes that can be your partner.

CRIMINOLOGY, PENOLOGY AND VICTIMOLOGY-Dr. Dipak Lokhande 2020-10-21 INTRODUCTION: There is no society without the issue of crime and criminals. The idea of crime is basically worried with the social order. Man is accepted to have developed from primate like progenitor. With the development of man has advanced his psyche and thinking. Man began utilizing the crude leaves, bugs and creatures as his food. Afterward, on revelation of fire, he discovered that food was more delectable when cooked. He utilized creature skin to cover his body. He remained in caverns to shield himself from the extremities of the climatic condition.

Ahmad Siddique's Criminology, Penology & Victimology-Ahmad Siddique 2016

International Handbook of Penology and Criminal Justice-Shlomo Giora Shoham 2007-10-08 At the outset of the twenty-first century, more than 9 million people are held in custody in over 200 countries around the world. --from the essay "Prisons and Jails" by Ron King The first comparative study of this increasingly integral social subject, International Handbook of Penology and Criminal Justice provides a comprehensive and balanced review of the philosophy and practicality of punishment. Drawn from the expertise of scholars and researchers from around the world, this book covers the theory, practice, history, and empirical evidence surrounding crime prevention, identification, retribution, and incarceration. It analyzes the efficacy of both traditional methods and thinking as well as novel concepts and approaches. Beginning with a study of the changing attitude of penal practice in Florida from one of offender transformation to one of risk-management, imprisonment, surveillance, and control, this volume embarks on an objective and sober appraisal of every aspect of the field. Contributions consider the sociology of incarcerated prisoners including the increasing prevalence of prison suicides. The book evaluates arguments regarding the world-wide abolition of capitol punishment from moral, utilitarian, and practical positions. It examines non-incarcerative and alternative punishments such as financial restoration and restrictions of liberty, as well as the positive effects of Victim Offender Mediation. It also considers several methods aimed at achieving measurable crime prevention including identifying at-risk juveniles and minimizing crimes of opportunity, as well as the pros and cons of employing the coercive power of police. Further essays consider subjects such as international policing, the roles of prosecution and defense attorneys, current discretionary sentencing practices, and the role and treatment of victims. The volume concludes with two chapters of case studies that provide a "hands-on" feel for the interplay of the concepts discussed. This volume is the first in a three-part trilogy. See also The International Handbook of Victimology and The International Handbook of Criminology.

Handbook of Victims and Victimology-Sandra Walklate 2012-08-21 The study of criminal victimisation has developed to the stage where by
Victimology is now regarded as a central component to the study of crime and criminology. This focus of concern has been matched by the growth and development of support services for the victim of crime alongside increasing political concern with similar issues. The central purpose of this book is to bring together leading scholars to produce an authoritative handbook on victims and victimology that gives due consideration to these developments. It will be concerned to reflect contemporary academic, policy, and political debates on the nature, extent and impact of criminal victimisation and policy responses to it. This book provides an overview of the importance of the role of the victim in the criminal justice system, with an analysis of the different theoretical perspectives within victimology, explores the relationship between victimisation and feminism with particular focus on domestic and sexual violence, analyses criminal justice policy and service delivery in relation to victims of crime, looking at developments within the UK and international perspectives. This handbook will be fundamental reading for students and academics studying victims and victimology and an essential reference tool for those working within the victim support environment.

Criminal Law & Criminal Justice - Noel Cross 2009-12-09 This accessible text enables criminology and criminal justice students to understand and critically evaluate criminal law in the context of criminal justice and wider social issues. The book explains criminal law comprehensively, covering both general principles and specific types of criminal offences. It examines criminal law in its social context, as well as considering how it is used by the criminal justice processes and agencies which enforce it in practice. Covering all the different theoretical approaches that the student of criminology and criminal justice will need to understand, the book provides learning tools such as: - chapter objectives - making the structure of the book easy to follow for students - questions for discussion and student exercises - helping students to think critically about the ideas and concepts in each chapter, and to undertake further independent and reflective study - 'definition boxes' explaining key concepts - helping students who are not familiar with specialist criminal law terminology to understand what the key basic concepts in criminal law really mean in practice - a companion Website which incorporates a range of resources for lecturers and students.

Victims of Crime - Robert C. Davis 2012-09-21 Victims of Crime 4/e includes newly contributed and updated articles utilizing the latest research and studies in the areas of violence, abuse, and victims’ rights from experts in the field. It has a stronger focus on emerging issues and policies in the field of victimology than other comparable texts. Features/Benefits: - Utilizes the latest research and studies in the areas of violence, abuse, and victims’ rights - Focuses on the emerging issues and policies in the fields of victim rights and crime prevention - The Chapter contributors represent some of the top scholars for each subject area. New to this Edition: - New 3 Part organization with the more common victimizing crimes first, followed by responses to victimizations, and then newer issues and types of victimizations in Part 3. - New chapters on human trafficking and cyber crime - Major expansion of the human services response and school victimizations. Updated throughout with new data and research.

Criminology - James Treadwell 2006-04-27 Designed as an accessible reference tool to introduce students to the subject of criminology, this work provides essential guidance on finding information, preparing coursework and revising for exams.

Crime, Mental Health and the Criminal Justice System in Africa - Heng Choon (Oliver) Chan

Criminology & Penology Abstracts - 1991 "An international abstracting service covering etiology of crime and juvenile delinquency, the control and treatment of offenders, criminal procedures and the administration of justice." Abstracts of journal articles and monographs. Covernmaterial from psychiatric literature as well as from criminological sources.

Forensic Victimology - Brent E. Turvey 2013-08-08 Published in 2009, the first edition of Forensic Victimology introduced criminologists and criminal investigators to the idea of systematically gathering and examining victim
information for the purposes of addressing investigative and forensic issues. The concepts presented within immediately proved vital to social scientists researching victims-offender relationships; investigators and forensic scientists seeking to reconstruct events and establish the elements of a crime; and criminal profilers seeking to link pattern crimes. This is because the principles and guidelines in Forensic Victimology were written to serve criminal investigation and anticipate courtroom testimony. As with the first, this second edition of Forensic Victimology is an applied presentation of a traditionally theoretical subject written by criminal justice practitioners with years of experience—both in the field and in the classroom. It distinguishes the investigative and forensic aspects of applied victim study as necessary adjuncts to what has often been considered a theoretical field. It then identifies the benefits of forensic victimology to casework, providing clearly defined methods and those standards of practice necessary for effectively serving the criminal justice system. 30% new content, with new chapters on Emergency Services, False Confessions, and Human Trafficking Use of up-to-date references and case examples to demonstrate the application of forensic victimology Provides context and scope for both the investigative and forensic aspects of case examination and evidence interpretation Approaches the study of victimology from a realistic standpoint, moving away from stereotypes and archetypes Useful for students and professionals working in relation to behavioral science, criminology, criminal justice, forensic science, and criminal investigation

**Reframing Punishment: Reflections of Culture, Literature and Morals** - 2020-09-25 This interdisciplinary volume offers an attempt to question, perplex and ultimately reframe our collective understanding of punishment.

**The Oxford Handbook of Criminology** - Rod Morgan 2012-04-12 With contributions from leading academics, The Oxford Handbook of Criminology provides an authoritative collection of chapters covering the topics studied on criminology courses. Each chapter details relevant theory, recent research, policy developments, and current debates, and includes extensive references to aid further research.

**Cyber Victimology** - Debarati Halder 2021-10-29 Cyber Victimology provides a global socio-legal-victimological perspective on victimisation online, written in clear, non-technical terms, and presents practical solutions for the problem. Halder qualitatively analyzes the contemporary dimensions of cyber-crime victimisation, aiming to fill the gap in the existing literature on this topic. A literature review, along with case studies, allows the author to analyze the current situation concerning cyber-crime victimisation. A profile of victims of cyber-crime has been developed based on the characteristics of different groups of victims. As well, new policy guidelines on the basis of UN documents on cybercrimes and victim justice are proposed to prevent such victimisation and to explore avenues for restitution of justice for cases of cyber-crime victimisation. This book shows how the effects of cyber victimisation in one sector can affect others. This book also examines why perpetrators choose to attack their victim/s in specific ways, which then have a ripple effect, creating greater harm to other members of society in unexpected ways. This book is suitable for use as a textbook in cyber victimology courses and will also be of great interest to policy makers and activists working in this area.

**The Oxford Handbook of Criminal Law** - Markus D Dubber 2014-11-27 The Oxford Handbook of Criminal Law reflects the continued transformation of criminal law into a global discipline, providing scholars with a comprehensive international resource, a common point of entry into cutting edge contemporary research and a snapshot of the state and scope of the field. To this end, the Handbook takes a broad approach to its subject matter, disciplinarily, geographically, and systematically. Its contributors include current and future research leaders representing a variety of legal systems, methodologies, areas of expertise, and research agendas. The Handbook is divided into four parts: Approaches & Methods (I), Systems & Methods (II), Aspects & Issues (III), and Contexts & Comparisons (IV). Part I includes essays exploring various methodological approaches to criminal law (such as criminology, feminist studies, and history). Part II provides an overview of systems or models of criminal law, laying the foundation for further inquiry into specific conceptions of criminal law as well as for comparative analysis (such as Islamic, Marxist, and military law). Part III
covers the three aspects of the penal process: the definition of norms and principles of liability (substantive criminal law), along with a less detailed treatment of the imposition of norms (criminal procedure) and the infliction of sanctions (prison or corrections law). Contributors consider the basic topics traditionally addressed in scholarship on the general and special parts of the substantive criminal law (such as jurisdiction, mens rea, justifications, and excuses). Part IV places criminal law in context, both domestically and transnationally, by exploring the contrasts between criminal law and other species of law and state power and by investigating criminal law’s place in the projects of comparative law, transnational, and international law.

**Introduction to Criminology**-Frank E. Hagan 2018-11-29 "This is one of the best texts I have seen in a while...It makes the world of criminology less daunting and more relevant." —Allyson S. Maida, St. John’s University

Introduction to Criminology, Tenth Edition, is a comprehensive introduction to the study of criminology, focusing on the vital core areas of the field—theory, method, and criminal behavior. With more attention to crime typologies than most introductory texts, Hagan and Daigle investigate all forms of criminal activity, such as organized crime, white collar crime, political crime, and environmental crime. The methods of operation, the effects on society and policy decisions, and the connection between theory and criminal behavior are all explained in a clear, accessible manner. The Routledge Handbook of Irish Criminology-Deirdre Healy 2015-12-14 The Routledge Handbook of Irish Criminology is the first edited collection of its kind to bring together the work of leading Irish criminologists in a single volume. While Irish criminology can be characterised as a nascent but dynamic discipline, it has much to offer the Irish and international reader due to the unique historical, cultural, political, social and economic arrangements that exist on the island of Ireland. The Handbook consists of 30 chapters, which offer original, comprehensive and critical reviews of theory, research, policy and practice in a wide range of subject areas. The chapters are divided into four thematic sections: Understanding crime examines specific offence types, including homicide, gangland crime and white-collar crime, and the theoretical perspectives used to explain them. Responding to crime explores criminal justice responses to crime, including crime prevention, restorative justice, approaches to policing and trial as well as post-conviction issues such as imprisonment, community sanctions and rehabilitation. Contexts of crime investigates the social, political and cultural contexts of the policymaking process, including media representations, politics, the role of the victim and the impact of gender. Emerging ideas focuses on innovative ideas that prompt a reconsideration of received wisdom on particular topics, including sexual violence and ethnicity. Charting the key contours of the criminological enterprise on the island of Ireland and placing the Irish material in the context of the wider European and international literature, this book is essential reading for those involved in the study of Irish criminology and international and comparative criminal justice.

Observations on the Criminal Law of England-Samuel Romilly 1813

Criminal Sociology-Enrico Ferri 1896

The Criminology of Criminal Law-William Laufer 2017-07-05 The Criminology of Criminal Law considers the relation between criminal law and theories of crime, criminality and justice. This book discusses a wide range of topics, including: the way in which white-collar crime is defined; new perspectives on stranger violence; the reasons why criminologists have neglected the study of genocide; the idea of boundary crossing in the
control of deviance; the relation between punishment and social solidarity; the connection between the notion of justice and modern sentencing theory; the social reaction to treason; and the association between politics and punitiveness. Contributors include Bonnie Berry, Don Gottfredson, David F. Greenberg, Marc Riedel, Jason Rourke, Kip Schlegel, Vered Vinitsky-Seroussi, Leslie T. Wilkins, Marvin E. Wolfgang, and Richard A. Wright. The Criminology of Criminal Law concludes with an analysis of the results of a study on the most cited scholars in the Advances in Criminological Theory series. This work will be beneficial to criminologists, sociologists, and scholars of legal studies. Advances in Criminological Theory is the first series exclusively dedicated to the dissemination of original work on criminological theory. It was created to overcome the neglect of theory construction and validation in existing criminological publications.

Criminology: The Key Concepts-Martin O'Brien 2008-06-23 Criminology: The Key Concepts is an authoritative and comprehensive study guide and reference resource that will take you through all the concepts, approaches, issues and institutions central to the study of crime in contemporary society. Topics covered in this easy to use A-Z guide include: policing, sentencing and the justice system types of crime, including corporate crime, cybercrime, sex and hate crimes feminist, marxist and cultural approaches to criminology terrorism, state crime, war crimes and human rights social issues such as anti-social behaviour, domestic violence and pornography criminal psychology and deviance Fully cross-referenced, with extensive suggestions for further reading and in-depth study of the topics discussed, this is an essential reference guide for students of Criminology at all levels.

The Routledge Handbook of European Criminology-Sophie Body-Gendrot 2013-08-15 This new book brings together some of the leading criminologists across Europe, to showcase the best of European criminology. This Handbook aims to reflect the range and depth of current work in Europe, and to counterbalance the impact of the – sometimes insular and ethnocentric – Anglo-American criminological tradition. The end-product is a collection of twenty-eight chapters illustrating a truly comparative and interdisciplinary European criminology. The editors have assembled a cast of leading voices to reflect on differences and commonalities, elaborate on theoretically grounded comparisons and reflect on emerging themes in criminology in Europe. After the editors’ introduction, the book is organised in three parts: five chapters offering historical, theoretical and policy oriented overviews of European issues in crime and crime control; seven chapters looking at different dimensions of crime in Europe, including crime trends, state crime, gender and crime and urban safety; fifteen chapters examining the variety of institutional responses, exploring issues such as policing, juvenile justice, punishment, green crime and the role of the victim. This book gives some indication of the richness and scope of the emerging comparative European criminology and will be required reading for anyone who wants to understand trends in crime and its control across Europe. It will also be a valuable teaching resource, especially at postgraduate level, as well as an important reference point for researchers and scholars of criminology across Europe.

Criminal Man, According to the Classification of Cesare Lombroso-Cesare Lombroso 2018-10-14 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Terrorism and Torture-Werner G. K. Stritzke 2009-06-18 A thought-provoking volume examining the complex factors contributing to terrorism and torture, and the links between those two heinous behaviours.
Applied Criminology by Brian Stout 2008-04-18 This is the first book to cover comprehensively and accessibly the area of applied criminology. It draws together leading experts with experience of teaching, research and practice. Each chapter engages with the application of criminology in a particular area of the community and criminal justice system, and offers: An overview of the relationship between criminological theory and policy and practice developments. Critical reflection on whether criminology has been meaningfully engaged - paying particular attention to the contemporary issues and debates. Evaluation of the implications for diverse communities, paying particular attention to discrimination and oppression and criminal justice values. Summaries, case studies and further reading to support knowledge and understanding. The book is accompanied by a companion website to enhance the learning experience. This includes: Lecture notes Online readings Student exercises Useful links

Liquid Criminology by Michael Hviid Jacobsen 2016-06-17 This book explores the ways in which criminological methods can be imaginatively deployed and developed in a world increasingly characterized by the blurred nature of social reality. Whilst recognizing the importance of positivist approaches and research techniques, it advocates a commitment to understanding the ways in which those techniques can be used imaginatively, at times in combination with less conventional methods, discussing the questions concerning risk, ethics and access that arise as a result. Giving voice to cutting edge research practices both in terms of concepts and methods that shift the criminological focus towards the kind of imaginative work that comprised the foundations of the discipline, it calls into question the utility and credentials of mainstream work that fails to serve the discipline itself or the policy questions allied to it. A call not to ‘give up on numbers’ but also not to be defined by statistics and the methods that produce them, Liquid Criminology sheds light on a way of doing research for criminology that is not only creative but also critical. As such, it will appeal to scholars of sociology, criminology and social policy with interests in research methods and design.

Community Based Corrections by Leanne Fiftal Alarid 2016-01-01 Objective, comprehensive, and up-to-date, the eleventh edition of best-selling COMMUNITY-BASED CORRECTIONS provides an excellent introduction to the theory, procedures, evidence-based practices, and personnel involved in community-based corrections. Students learn about the supervision techniques and treatment programs that constitute alternatives to incarceration, and which are designed to meet the level of risk and needs of each individual. These include probation, parole, electronic monitoring, house arrest, residential facilities, restitution, fines, and other options. Coverage of theories related to community correctional goals includes discussion of specific deterrence; rehabilitation through risk, needs, and responsivity; and restorative justice. Input from professionals in the field gives students invaluable insight into real-world practice. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Encyclopedia of Research Methods in Criminology and Criminal Justice, 2 Volume Set by J.C. Barnes 2021-09-08 The Encyclopedia of RESEARCH METHODS IN CRIMINOLOGY & CRIMINAL JUSTICE The most comprehensive reference work on research designs and methods in criminology and criminal justice This Encyclopedia of Research Methods in Criminology and Criminal Justice offers a comprehensive survey of research methodologies and statistical techniques that are popular in criminology and criminal justice systems across the globe. With contributions from leading scholars and practitioners in the field, it offers a clear insight into the techniques that are currently in use to answer the pressing questions in criminology and criminal justice. The Encyclopedia contains essential information from a diverse pool of authors about research designs grounded in both qualitative and quantitative approaches. It includes information on popular datasets and leading resources of government statistics. In addition, the contributors cover a wide range of topics such as: the most current research on the link between guns and crime, rational choice theory, and the use of technology like geospatial mapping as a crime reduction tool. This invaluable reference work: Offers a comprehensive survey of international research designs, methods, and statistical techniques Includes contributions from leading figures in the field Presents information on capital punishment, domestic violence, crime...
Research Methods in Criminal Justice and Criminology - Callie Marie Rennison 2018-01-20

"This is a great text. It is comprehensive and easy to understand. The illustrations will enable students to learn and remember the information. This is the first research methods text I have read that is actually fun to read." — Tina L. Freiburger, University of Wisconsin-Milwaukee Research Methods in Criminal Justice and Criminology connects key concepts to real field research and practices using contemporary examples and recurring case studies that demonstrate how concepts relate to students’ lives. Authors Callie M. Rennison and Timothy C. Hart introduce practical research strategies used in criminal justice to show students how a research question can become a policy that changes or influences criminal justice practices. The book's student-driven approach addresses both the why and the how as it covers the research process and focuses on the practical application of data collection and analysis. By demonstrating the variety of ways research can be used and reinforcing the need to discern quality research, the book prepares students to become critical consumers and ethical producers of research. Free Poster: How to conduct a literature review Give your students the SAGE edge! Criminology and Penology - John Lewis Gillin 1945 Strafrecht.

Crime Victims - Andrew Karmen 2012-05-08

A first in the field when initially published and now a true classic, CRIME VICTIMS: AN INTRODUCTION TO VICTIMOLOGY, 8E, International Edition offers the most comprehensive and balanced exploration of victimology available today. The author examines the victims’ plight, carefully placing statistics from the FBI’s Uniform Crime Report and Bureau of Justice Statistics National Crime Victimization Survey in context. The text systematically investigates how victims are currently handled by the criminal justice system, analyzes the goals of the victims’ rights movement, and discusses what the future is likely to hold. This Eighth edition expands coverage of human trafficking, crimes on campus, identity theft, stalking, motor vehicle theft, prison attacks, and similar high-profile issues.

Crime and Criminology - S. R. Myneni 2017

Textbook on Criminology - Katherine S. Williams 2012

This text offers an engaging and wide-ranging account of crime and criminology. It provides a clear and comprehensive consideration of the theoretical, practical, and political aspects of the subject, including the influence of physical, biological, psychological, and social factors on criminality.

Of Crimes and Punishments - Cesare Bonesana 2006

Criminology - Larry J. Siegel 1998

This text offers a comprehensive look at all areas of criminology -- from crime, law, criminological theory, and crime typologies to broader issues concerning the criminal justice system. This text is ideal for those courses that concentrate on criminological theories and crime typologies. Same text as Siegel: CRIMINOLOGY, 6/E without Chapters 15-17 on systems.
Criminology - Tim Newburn 2017-02-22 Comprehensive and accessible, Tim Newburn’s bestselling Criminology provides an introduction to the fundamental themes, concepts, theories, methods and events that underpin the subject and form the basis for all undergraduate degree courses and modules in Criminology and Criminal Justice. This third edition includes: A new chapter on politics, reflecting the ever increasing coverage of political influence and decision making on criminology courses New and updated crime data and analysis of trends, plus new content on recent events such as the Volkswagen scandal, the latest developments on historic child abuse, as well as extended coverage throughout of the English riots A fully revised and updated companion website, including exam, review and multiple choice questions, a live Twitter feed from the author providing links to media and academic coverage of events related to the concepts covered in the book, together with links to a dedicated textbook Facebook page Fully updated to reflect recent developments in the field and extensively illustrated, this authoritative text, written by a leading criminologist and experienced lecturer, is essential reading for all students of Criminology and related fields.

Institutionalizing Restorative Justice - Ivo Aertsen 2013-06-17 Exploring the key issues and debates surrounding the question of the incorporation and institutionalization of restorative justice, this book builds bridges between those concerned with the practical and the more theoretical aspects of penal development.

Kenny's Outlines of Criminal Law - J. W. Cecil Turner 2013-09-19 First published in 1962, this book formed part of an ongoing series of elementary legal guides. The text was intended to assist students in understanding the rules of criminal law which would enable them to form a clear idea of the practical task confronting the prosecution and defence in the trials of specific people.

Working with Victims of Crime with Disabilities - Cheryl Guidry Tyiska 1998

Victimology - Ann Wolbert Burgess 2012-08-23 Thoroughly revised and updated to reflect the most current trends and developments in the field, Victimology: Theories and Applications, Second Edition provides a comprehensive introduction to the study of victimization, crime typologies, and the impact of crime on victims, offenders, and society at large. Each chapter provides an overview of the scope, law, and victim response to crime and concludes with a summary and discussion questions to ensure comprehension. An overview of the issues impacting victims of a wide variety of traditional and contemporary crimes are examined, including child maltreatment, intimate partner violence, bullying, elder abuse, cybercrime and hate crimes. The history and theories of victimology are explored, as well as definitive laws and policies, strategies for intervention, and future research areas. This Second Edition offers a balance between theory and application and will prepare readers to work with victims, offenders, and the justice system. New to the Second Edition: -Contains new contemporary case studies, including the cases of IMF chief Dominique Strauss-Khan, Casey Anthony, and the Senator Scott Brown case as illustrating non-disclosure of childhood abuse for 40 years. -Includes an analysis on the Casey Anthony case from the perspective of the jury in the chapter on justice systems. -A new chapter includes discussions on domestic and international databases and studies, including UCR, NCVS, StatsCan, Justice Canada, Interpol, and WHO reports on victimization. -Includes a new chapter on child abduction and exploitation including a discussion of child trafficking. -All tables and figures have been updated to reflect the most current data. -Every new printed copy is packaged with full student access to the companion website, which features a variety of engaging and interactive study tools. Key Features: -Offers a balance between theory and the research and practice-oriented tools to prepare readers to work with...
victims, offenders, and the justice system. Covers current topics including: human trafficking, victims of gang violence, bullying, victims of terrorism, victims of cybercrime, property crimes, corporate crimes, workplace violence, racial profiling and disproportionate penalties.
