This resource shows educators how to establish dynamic curriculum leadership and develop a curriculum that will transform an ordinary school into a school of excellence.
Critical Curriculum Leadership - Rose M. Ylimaki
2011-01-03 Although traditional curriculum and instructional leadership frameworks have dominated educational administration training for almost thirty years, it has become increasingly clear that even the most recent frameworks have failed today’s leaders who struggle with the politics of curriculum decisions on a daily basis. Critical Curriculum Leadership is an examination of curriculum leadership in the wake of U.S. testing mandates and school reforms, all of which seem to support a particular set of conservative ideologies. Drawing from her own longitudinal ethnographic study and from existing literature and research in the field, Ylimaki explores the formation of curriculum leadership in relation to broader cultural and political shifts. She shows how traditional leadership frameworks have come up short, and makes the case for an alternative leadership theory at the intersection of educational leadership and curriculum studies. She provides analytical tools that inspire progressive education and offers critical theories, strategies, research examples, problem-posing cases, and research ideas essential for curriculum leadership in the present conservative era. Critical Curriculum Leadership will appeal to the many educational leadership scholars and practitioners who are interested in developing effective and socially just curricula in their schools and districts as well as curriculum scholars who are interested in leadership issues.

Leading for Instructional Improvement - Stephen Fink
2011-03-22 Leading for Instructional Improvement
Educational experts agree that quality teaching is the single most important factor in improving educational outcomes for all students.

Teaching is a highly sophisticated and complex endeavor requiring deep expertise on the part of teachers and school leaders. This book shows how teacher, school, and district leaders can cultivate the expertise of teachers to deliver high quality instruction for all students. Leading for Instructional Improvement captures the nationally acclaimed work conducted by the Center for Educational Leadership at the University of Washington in its effort to improve the quality of teaching and leadership in schools across the country. The book provides extensive practical guidance grounded in theory and research, along with powerful stories and examples from classrooms, schools, and districts. Many of the tools, protocols, and frameworks contained in this book can be accessed electronically by visiting the Center for Educational Leadership website at www.k-12leadership.org.

Praise for Leading for Instructional Improvement
"This book offers insights that are invaluable to educators who seek to enhance teacher
effectiveness now. The ideas presented are practical and applicable to schools in a variety of settings." —PEDRO A. NOGUERA, Ph.D., Peter L. Agnew Professor of Education, Steinhardt School of Culture, Education and Development and executive director, Metropolitan Center for Urban Education "A deep and thoughtful look at how the issue of expertise is cultivated. Seizing upon their Center's research-based instructional framework, the authors provide important insights and tools." —DR. BEVERLY HALL, superintendent, Atlanta Public Schools "In this age of intense focus on how we evaluate teachers, we have to remember that any evaluation is only as good as the evaluator. This extremely useful book provides an excellent roadmap for how principals can become more effective in the most important aspect of their work, instructional leadership." —JERRY D. WEAST, Ed.D., superintendent of schools, Montgomery County Public Schools, Maryland "Fink and Markholt offer practitioners a guide to effective teaching. Leading for Instructional Improvement asks us to heed the lessons within and support the kind of teacher education that will improve student achievement for today's schools and those of tomorrow." —BARNETT BERRY, president, Center for Teaching Quality

**Align the Design**-Nancy J. Mooney 2008-02-14 "This is our THIRD school improvement plan! Why aren't we seeing any results?" "We have all of this data, but we don't know what to do with it!" "What does this workshop have to do with the goals we set for our school? Many of today's school leaders have all the latest tools, techniques, and programs for school improvement. Unfortunately, some leaders fail to create real, sustainable results for their schools because they use one or two "flavor-of-the-month" strategies without connecting all the pieces together for real improvement. In Align the Design: A Blueprint for School Improvement, Nancy J. Mooney and Ann T. Mausbach
emphasize the importance of coordinating essential school improvement processes to increase staff capacity, improve student achievement, and develop effective schools. The authors show school leaders how to use "power tools" to:

- Develop effective curriculum
- Make the most of their school's data
- Create successful school improvement plans
- Implement valuable professional development sessions and workshops
- Use efficient supervisory techniques
- Foster leadership for school improvement

Each chapter includes personal reflections from the authors and lists of touchstone texts that have inspired their efforts. At a time when school leaders are trying to translate urgent calls for higher achievement into actions that work, Align the Design provides expert guidance and practical tools that will help educators work more purposefully together to create better schools for their students.

**The Leader in Me** - Stephen R. Covey 2014-08-19

An introduction to leadership draws on a program developed for an elementary school to show how to apply the principles of "The 7 Habits of Highly Effective People" to help everyone, including young children, identify and use their individual talents.

**Linking Leadership to Student Learning** - Kenneth Leithwood 2011-10-21

Linking Leadership to Student Learning clearly shows how school leadership improves student achievement. The book is based on an ambitious five-year study on educational leadership that was sponsored by The Wallace Foundation. The authors studied 43 districts, across 9 states and 180 elementary, middle, and secondary schools. In this book, Kenneth Leithwood, Karen Seashore Louis, and their colleagues report on what they found. They examined leadership at each organizational level in the school system—classroom, school, district, community, and state. Their comprehensive approach to...
investigating school leadership offers a balanced understanding of how the structures within which leaders operate shape what they do. The results within will have significant implications for future policy and practice. Praise for Linking Leadership to Student Learning "Kenneth Leithwood and Karen Seashore Louis offer a seminal new contribution to the leadership field. They provide a rich and authoritative evidence base that demonstrates clearly just why school leadership is so important and how it promotes successful student learning." —PAMELA SAMMONS, Ph.D., Professor of Education, Department of Education, University of Oxford, Oxford "This ambitious, groundbreaking, and thought provoking treatment of the link between school leadership and student learning is a testament to the outstanding work of these exemplary scholars. This is a 'must read' for academics and practitioners alike." —MARTHA McCARTHY, President's Professor, Loyola Marymount University, and Chancellor's Professor Emeritus, Indiana University "The question is no longer whether school and district leader's impact student learning, but rather how they do it. The authors provide a convincing answer, one that recognizes the crucial interaction between leader and locality." —DANIEL L. DUKE, Professor of Educational Leadership, University of Virginia

It will be especially useful to students training to be teachers, and practising teachers following professional development programmes.

Curriculum Leadership - Leo H. Bradley 2003-11-05
Moving beyond alignment and national boilerplate standards, this book takes the position that curriculum and instruction are inseparable concepts from the institutional point of view, and presents strategies to ensure their congruency. To achieve student success it is imperative that educational leaders have superb knowledge and skills in curriculum and instructional leadership whether they operate from the central office or the building level. Bradley contends that paper and pencil tests to measure student achievement on basic and minimum skills will certainly remain as one criterion of school evaluation. However, the public and the educational community will continue to demand the maximizing of potential for all students as an evaluation component of equal value and importance. The educational leader of today and tomorrow will need the knowledge and skills to facilitate this two-pronged approach to student achievement through curriculum design, development, implementation, and evaluation. Curriculum Leadership has, as its purpose, the preparation of leaders to facilitate this process.

Promoting Your School - Carolyn Warner 2009-01-27

The Strategy Playbook for Educational Leaders - Isobel Stevenson 2020-12-15 This how-to resource provides leaders with a concrete framework for a strategic improvement plan, helping educators link the "principles" to "processes" of planning. Packed with key takeaways and additional resources, this book provides the concrete tools to design a strong strategy for improvement and enables educational leaders to think constructively about why we plan, what an effective strategic plan should contain, and how to create meaningful dialogue to support plan development, implementation, and monitoring for continuous improvement. The Strategy Playbook for Educational Leaders provides superintendents, central office staff, principals, and teacher leaders with the opportunity to reframe the process of their strategic planning and breathe new life into the activity.

The Future of Leadership Development - Susan E.
A Leader's Guide to Science Curriculum Topic Study - Susan Mundry
2009-11-24 The Curriculum Topic Study (CTS) process, funded by the US National Science Foundation, helps teachers improve their practice by linking standards and research to content, curriculum, instruction, and assessment. Key to the core book Science Curriculum Topic Study, this resource helps science professional development leaders and teacher educators understand the CTS approach and how to design, lead, and apply CTS in a variety of settings that support teachers as learners. The authors provide everything needed to facilitate the CTS process, including: a solid foundation in the CTS framework; multiple designs for half-day and full-day workshops, professional learning communities, and one-on-one instructional coaching; facilitation, group processing, and materials management strategies; and a CD-ROM with handouts, PowerPoint slides, and templates. By bringing CTS into schools and other professional development settings, science leaders can enhance their teachers' knowledge of content, improve teaching practices, and have a positive impact on student learning.

Leaders of Their Own Learning - Ron Berger
2014-01-07 From Expeditionary Learning Schools comes a proven approach to student assessment. Leaders of Their Own Learning offers a new way of thinking about assessment based on the celebrated work of Expeditionary Learning Schools across the country. Student-Engaged Assessment is not a single practice but an approach to teaching and learning that equips and compels students to understand goals for their learning and growth, track their progress toward those goals, and take responsibility for reaching them. This
requires a set of interrelated strategies and structures and a whole-school culture in which students are given the respect and responsibility to be meaningfully engaged in their own learning. Includes everything teachers and school leaders need to implement a successful Student-Engaged Assessment system in their schools. Outlines the practices that will engage students in making academic progress, improve achievement, and involve families and communities in the life of the school. Describes each of the book’s eight key practices, gives advice on how to begin, and explains what teachers and school leaders need to put into practice in their own classrooms. Ron Berger is Chief Program Officer for Expeditionary Learning and former public school teacher. Leaders of Their Own Learning shows educators how to ignite the capacity of students to take responsibility for their own learning, meet Common Core and state standards, and reach higher levels of achievement. DVD and other supplementary materials are not included as part of the e-book file, but are available for download after purchase.

How to Help Your School Thrive Without Breaking the Bank—John G. Gabriel 2009-02-20 How to Help Your School Thrive Without Breaking the Bank will help you improve your school without investing in externally developed, expensive, and time-consuming reform programs or initiatives. It's packed with replicable strategies and practical tools that educators in any school can incorporate to transform the culture and improve student achievement and professional practice. You'll learn how to: * Hone your own leadership and grow new leaders among your staff; * Develop a vision and a mission for your school; * Promote excellence among both staff and students; * Make the most of your time and facilitate effective meetings; and * Mine and use data with purpose. For most schools, times are tough and money is tight—but school leaders must still focus on
how to steadily improve student achievement. Academic performance will improve in the long term only if your school has a healthy culture marked by integrity, a strong work ethic, collaboration, and reflective risk taking. Strengthening those foundational elements will help you sustain positive change in your school, even in difficult economic times. The good news is that you already have the resources you need to help your school thrive. This book will help you to maximize them.

Student-Centered Leadership - Viviane Robinson
2011-06-24

Student-Centered Leadership offers a timely and thoughtful resource for school leaders who want to turn their ideals into action. Written by educational leadership expert Viviane Robinson, the book shows leaders how they can make a bigger difference to the quality of teaching and learning in their school and ultimately improve their students' performance. This book is based not on fad or fashion but on the best available evidence about the impact of different types of leadership on student outcomes. The book includes examples of five types of leadership practice as well as rich accounts of the knowledge and skills that leaders need to employ them with confidence. Filled with practical lessons, clear information, and much inspiration, Robinson encourages leaders to experiment with changing how they lead so they can transform their schools for the better. Student-Centered Leadership is part of the Jossey-Bass Leadership Library in Education series.

Ensuring High-Quality Curriculum—Angela Di Michele Lalor 2016-11-10

We know that curriculum is the core of the classroom experience, but what makes a quality curriculum? How can educators be sure that what they teach is strongly aligned to the specific standards that their district or school has adopted? What kinds of lessons, learning experiences, and assessments are most effective, and how should they be embedded within the curriculum? You’ll find the answers to these and many other questions in this definitive, step-by-step guide to curriculum design and evaluation. Drawing from her work with teachers and administrators to facilitate curriculum development, Angela Di Michele Lalor offers targeted advice and real-life examples from elementary and secondary units of study across a variety of content areas and standards, as well as field-tested rubrics, protocols, and other tools. She provides criteria for evaluating each component of a curriculum and end-of-chapter checklists to help you ensure that the criteria are met. Relevant to anyone who is creating or revising curriculum, or evaluating options among published alternatives, Ensuring High-Quality Curriculum is a comprehensive and accessible roadmap to developing a solid foundation for teaching and learning—and better results in the classroom.

Leadership of Pedagogy and Curriculum in Higher Music Education—Jennifer Rowley 2019-01-10

Leadership of Pedagogy and Curriculum in Higher Music Education is the second of a two-volume anthology dedicated to leadership and leadership development in higher music education. Fifteen authors write from
multiple countries and contexts, exploring pedagogical and curricular leadership challenges and successes from around the globe. They draw attention to the dynamics of pedagogical approaches which encourage learners’ deep and agentic engagement, considering the sustainability and scope of such interventions while highlighting positive frameworks and approaches. As with its companion volume, Leadership of Pedagogy and Curriculum in Higher Music Education includes student commentary in which student contributors give concrete ideas and recommendations for facilitating and strengthening leadership development through practical and equitable strategies with students, communities and colleagues. The outcome is a collection of essays designed to offer student musicians, higher education teachers and institutional leaders theoretically informed and practical insights into the development and practice of leadership.

Leadership Strategies for Community College Executives-Gunder A. Myran 2003 Presidents, executive teams, governing boards, administrators, faculty leaders, and graduate students alike will benefit from this comprehensive primer. colleagues how to implement the most promising pedagogy in their classrooms.

**Concept-Based Curriculum and Instruction for the Thinking Classroom** - H. Lynn Erickson (2007)

This indispensable guide combines proven curriculum design with teaching methods that encourage students to learn concepts as well as content and skills for deep understanding across all subject areas.

**Professional and Ethical Consideration for Early Childhood Leaders** - Cunningham, Denise D. (2020-06-19)

Early childhood educators are keenly aware of the importance of a child’s transition to “real school.” This transition is occurring earlier in a child’s life now that school districts nationwide are moving to pre-kindergarten experiences for 3- and 4-year olds. Annually, more than one million children attend public school pre-k programs overseen by elementary school principals who, although veteran educational leaders, were not trained to oversee these programs. Although pre-k classrooms are rapidly growing and deserve special attention, school leaders must be reminded that early childhood means more than pre-kindergarten; it extends through third grade. School leadership needs to understand the principles of early childhood education to effectively support all children age three to grade three. Professional and Ethical Consideration for Early Childhood Leaders is a collection of innovative research that crafts an overall understanding of the importance of early childhood leadership in today’s schools. The book employs strategies to improve support for children in early childhood years, examines the different roles of early childhood leadership, analyzes best practices for implementation in early childhood contexts, and explores improvements for leadership preparation for schools with pre-k through third-grade children. While highlighting a wide range of topics including advocacy,
cultural responses, and professional development, this publication is ideally designed for educators, administrators, principals, early childhood development teachers, daycare instructors, curriculum developers, advocates, researchers, academicians, and students.

Everyone conducts in-service training workshops for staff and parents or who teaches early childhood education courses will find the video an indispensable tool for explainin appropriate practice.

**Leadership and Management Development in Education**—Tony Bush

2008-03-17 'This is a very good and much needed book. Written by a very experienced researcher and teacher in the education leadership world it brings together a wealth of understanding and insights in the field of leadership and management development in education' - International Journal of Educational Management

'[T]his book is an excellent survey of practice on a truly international scale which many will find valuable' - Educational Management Administration and Leadership

'Few people could be better qualified to write about this topic than Tony Bush. The book draws on a wealth of experience and detailed research. Typically, it is extremely well structured, written with great clarity, and combines the highest levels of scholarship with an accessible style that will enable it to appeal to a wide audience. This is a book that many in the field have been waiting for' - Professor Mark Brundrett, Professor of Educational Research,
Liverpool John Moores University, Liverpool 'This book is far and away the best international comparative study of leadership development for schools. There are countless books highlighting the importance of leadership but none have satisfactorily gone to the heart of the issue, especially for developed and developing countries, and Tony Bush has done it here. It is a sure guide to policymakers, practitioners and researchers who want to make a difference' - Professor Brian J. Caldwell, Managing Director of Educational Transformations and former Dean of Education at the University of Melbourne, Australia Leadership is critical to educational development and specific preparation is vital if leaders are to maximise their effectiveness. In this major new text, Tony Bush draws on his extensive international experience and research to examine the case for leadership development and assess the different modes of preparation used in Europe, including the U.K., North America, Asia Pacific, Australia, New Zealand and Africa. He also examines research on how leadership impacts on school and student outcomes and considers future directions for leadership and management development in education. This text is essential reading for students of educational leadership and management as well as for policy-makers, headteachers and principals.

Professional Development for Differentiating Instruction-Cindy A. Strickland 2009 This resource contains more than 45 tools and activities that make it easier for staff developers, teacher leaders, and other professional development leaders to show teachers and administrators how to successfully implement and maintain differentiated instruction. --from publisher description.

State of Readiness-Joseph F. Paris Jr. 2017-05-16 Accelerated Strategy Development and Execution The company of today has its supply chains and finances
stretched further around the globe than ever before while simultaneously having increasing pressures to drive value across a complicated and fluid set of metrics and deliver innovations, products, and services more quickly and reliably. The competitive advantage belongs to the companies that can quicken their vision-building and strategy-execution efforts—the ones that can identify challenges more swiftly and accelerate their decision making so they are better able to formulate and deploy responses decisively yet with greater agility. To successfully accomplish this, companies will have to prioritize creating a culture of leadership that strengthens communication skills and emphasizes systems thinking by building capacity and capability that cuts across the business smokestacks and permeates the entire organization. In State of Readiness, Joseph F. Paris Jr. shares over thirty years of international business and operations experience and guides C-suite executives and business-operations and -improvement specialists on a path toward operational excellence, the organizational capability and situational awareness that is attained as the enterprise reaches a state of alignment for pursuing its strategies. In doing so, create a corporate culture that is committed to the continuous and deliberate improvement of company performance and the circumstances of those who work there—a precursor to becoming a high-performance organization.

**An Educational Leader's Guide to Curriculum Mapping** - Janet A. Hale

**Positive Leadership** - Kim S. Cameron
2012 The first edition introduced the newly emerging field called Positive Organizational Scholarship. Rather than focusing on organizational dysfunction, Positive Organizational...
Scholarship looks at organizations that are functioning at an unusually high level. Learning from such successful groups about what they did right forms the backbone of the strategy, because strategies that capitalize on the positive tend to produce life-giving, flourishing outcomes in organizations. The four strategies discussed in the first edition included the cultivation of positive climate, positive relationships, positive communication, and positive meaning. Each strategy is explained and illustrated. In this revised edition, the author will add the following materials: Chapter 1:

Outlining three outcomes associated with positive leadership and one more example. Chapter 2: Adding some empirical findings linking attributes of climate with physiological benefits. Chapter 3: A brief discussion of temporary encounters with positive or negative outcomes. Chapter 4: Additional research on the results of the positive-to-negative-communication-ratio. Chapter 5: Elaboration on the issue of meaningfulness in work. Chapter 6: More ideas for implementation.
