A Degree in a Book: Philosophy-Peter Gibson 2018-12-12 A perfect introduction for students and laypeople alike, A Degree in a Book: Philosophy provides you with all the concepts you need to understand the fundamental issues. Filled with helpful diagrams, suggestions for further reading, and easily digestible features on the history of philosophy, this book makes learning the subject easier than ever. Including ideas from Aristotle and Zeno to Descartes and Wittgenstein, it covers the whole range of western thought. By the time you finish reading this book, you will be able to answer questions like:
• What is truth?
• What can I really know?
• How can I live a moral life?
• Do I have free will?

Ethics 101-Brian Boone 2017-11-07 Explore the mysteries of morality and the concept of right and wrong with this accessible, engaging guide featuring basic facts along with an overview of modern-day issues ranging from business ethics and bioethics to political and social ethics. Ethics 101 offers an exciting look into the history of moral principles that dictate human behavior. Unlike traditional textbooks that overwhelm, this easy-to-read guide presents the key concepts of ethics in fun, straightforward lessons and exercises featuring only the most important facts, theories, and ideas. Ethics 101 includes unique, accessible elements such as:
- Explanations of the major moral philosophies including utilitarianism, deontology, virtue ethics, and eastern philosophers including Avicenna, Buddha, and Confucius.
- Classic thought exercises including the trolley problem, the sortes paradox, and agency theory
-Unique profiles of the greatest characters in moral philosophy
-An explanation of modern applied ethics in bioethics, business ethics, political ethics, professional ethics, organizational ethics, and social ethics
From Plato to Jean-Paul Sartre and utilitarianism to antirealism, Ethics 101 is jam-packed with enlightening information that you can't get anywhere else!

Philosophy for Girls-Melissa Shew 2020-09-18 This revolutionary book empowers its readers by exploring enduring, challenging, and timely philosophical issues in new essays written by expert women philosophers. The book will inspire and entice these philosophers' younger counterparts, curious readers of all genders, and all who support equity in philosophy. If asked to envision a philosopher, people might imagine a bearded man, probably Greek, perhaps in a toga, pontificating about abstract ideas. Or they might think of that same man in the Enlightenment, gripping a quill pen and pouring universal truths onto a page. They may even call to mind a much more modern man, wearing a black sweater and smoking a cigarette in a Paris café, expressing existential angst in a new novel or essay. What people are unlikely to picture, though, is a woman. Women have historically been excluded from the discipline of philosophy and remain largely marginalized in contemporary textbooks and anthologies. The under-representation of women in secondary and post-secondary curricula makes it harder for young women to see themselves as future philosophers. In fact, it makes it harder for all people to engage the valuable contributions that women have made and continue to make to intellectual thought. While some progress has been made in building a more inclusive world of philosophy, especially in the last fifty years, important work remains to be done. Philosophy for Girls helps correct the pervasive and problematic omission of women from philosophy. Divided into four sections that connect to major, primary fields in philosophy (metaphysics, epistemology, social and political philosophy, and ethics), this anthology is unique; chapters are all written by women, and each chapter opens with an anecdote about a girl or woman from mythology, history, art, literature, or science to introduce chapter topics. Further, nearly all primary and secondary sources used in the chapters are written by women philosophers. The book is written in a rigorous, academic spirit but in lively and engaging prose, making serious philosophical insights accessible to readers who are new to philosophy. This book appeals to a wide audience. Individual readers will find value in these pages—especially girls and women ages 16-24, as well as university and high school educators and students who want a change from standard anthologies that include few or no women. The book's contributors both represent and map the diverse landscape of philosophy, highlighting its engagement with themes of gender and equity. In doing so, they encourage philosophers current and future philosophers to explore new territory and further develop the topography of the field. Philosophy for Girls is a rigorous yet accessible entry-point to philosophical contemplation designed to inspire a new generation of philosophers.

Philosophy for Beginners-Richard Osborne 2007-08-01 Why does philosophy give some people a headache, others a real buzz, and yet others a feeling that it is subversive and dangerous? Why do a lot of people think philosophy is totally irrelevant? What is philosophy anyway? The ABCs of philosophy - easy to understand but never simplistic. Beginning with basic questions posed by the ancient Greeks - What is the world made of? What is a man? What is knowledge? What is good and evil? - Philosophy For Beginners traces the development of these questions as the key to understanding how Western philosophy developed over the last 2,500 years.

Head, Shoulders, Pee, and Moles-Paul Kleinman 2012-04-18 The only see-it-and-believe-it guide to whole-body self-diagnosis! Worried about that not-so-distinct mole? Has an online search led you to believe that you're suffering from neurodermatitis, nasal polyps, or elephantitis? Do you slather on a bottle of sanitizer daily or avoid others like they have the plague? Don't quarantine yourself just yet—trust your own eyes! Thanks to the help and humor of Paul Kleinman, you can learn and laugh about what you've got and what you're coming down with, all by looking at your body. Prognoses include: Dry, brittle hair is a symptom of hypothyroidism. Looks like you're running low on hormones or moisturizing shampoo. . . . White patches on your feet could mean you have pitted keratolysis. Great, so a colony of bacteria decided to move in or you forgot to use your antiperspirant again. . . . A rash from cheek to cheek could be a sign of lupus. Don't fret—your insides might be at war with an inflammatory disease or you may just need a higher SPF. . . . Drawn from real tenets of traditional medicine, modern research, and alternative practices, this tongue-in-cheek health guide will scratch your cyberchondriac's itch for information.

101 Key Terms in Philosophy and Their Importance for Theology-Kelly James Clark 2004-01-01 Written by two philosophers and a theologian, this book provides easy access to key terms in philosophy and how they are understood and used in theology. The focused entries discuss what the terms have meant in classical and contemporary philosophy and then shift to what these philosophical understandings have meant in the history of Christian theology to the present day. The result is a unique volume that clearly shows the interplay of these disciplines and how theology has been influenced by the language and vocabulary of philosophy.

The Philosophy Book-DK 2015-03-02 What existed before the Universe was created? Where does self-worth come from? Do the ends always justify the means? The Philosophy Book answers the most profound questions we all have. It is your visual guide to the fundamental nature of existence, society, and how we think. Discover what it means to be free, whether science can predict the future, or how language shapes our thoughts. Learn about the world's greatest philosophers, from Plato and Confucius to modern thinkers such as Chomsky and Derrida and follow charts and timelines that graphically show the progression of ideas and logic. Written in plain English, with concise explanations of branches of philosophy such as metaphysics and ethics, it untangles complicated theories and makes sense of abstract concepts. It is an ideal reference whether you're a student or a general reader, with simple explanations of big ideas, including the four noble truths, the soul, class struggle, moral purpose, and good and evil. If you're curious about the deeper questions in life, The Philosophy Book is both an invaluable reference and illuminating read.

Philosophy A Visual Encyclopedia-DK 2020-11-10 The perfect book for young readers looking to explore some of life's biggest questions. Thousands of years ago, ancient philosophers asked some important questions: "What is real?", "What is the point of my existence?", "Why is there evil in the world?", and "What can I know?" These questions have gone on to spark passionate debates about our existence and how we understand the world around us. In this engaging and accessible introduction to philosophy, readers aged 11+ will be introduced to a variety of philosophical ideas through the teachings of Plato, Confucius, Simone de Beauvoir, and many more. Vibrant, reader-friendly illustrations bring the history of ideas and thinking to life, and provide topics for reflection and debate. With biographies of the most influential philosophers from around the world, young readers will explore the questions that have been fundamental to the development of scientific study, logical thinking, religious beliefs, freedom in society, and much more. Thought experiments peppered throughout will help to connect readers with the theories presented so they can apply them to their own lives.

All the Sh*t You Should Have Learned-Paul Kleinman 2019-12-24 If you've forgotten a thing or two since school, now you can go from knowing jack sh*t to knowing your sh*t in no time! How Philosophy Works-DK 2019-08-06 What is the meaning of life? Are we truly free? How can we make ethical choices? Discover the answers to life's greatest questions. Demystifying the key ideas of the world's greatest philosophers, and exploring all of the most important branches of philosophical thought in a uniquely visual way, this book is the perfect introduction to the history of philosophy. How Philosophy Works combines bold infographics and jargon-free text to demystify fundamental concepts about the nature of reality. Covering everything from ethics to epistemology and phenomenology, the book presents the ideas and theories of key philosophical traditions and philosophers - from Plato and Socrates to Nietzsche and Wittgenstein via Kant - in a novel, easy-to-understand way. Its infographics will help you to understand the elements of philosophy on a conceptual level and, by tackling life's "big questions", it will help you to look at the world in an entirely new way. With its unique graphic approach and clear, authoritative text, How Philosophy Works is the perfect introduction to philosophy, and the ideal companion to DK's The Philosophy Book in the "Big Ideas" series.

Meditations on First Philosophy-Rene Descartes 2021-11-13 Meditations on First Philosophy Rene Descartes - Descartes's Meditations on First Philosophy, the fundamental and originating work of the modern era in Western philosophy, is presented here in Donald Cress's completely revised edition of his well-established translation, bringing this version even closer to Descartes's original, while maintaining its clear and accessible style.

Grammar 101-Kathleen Sears 2017-05-09 Learn the rules of the English language with this easy and engaging style guide. Grammar is complicated. But many textbooks and style guides are often so long and tedious that even English teachers use them as a classroom doorstop. Grammar 101 is a fun, comprehensive guide focusing on the essentials of grammar. With simple explanations and entertaining examples, you can learn everything you need to know to employ commas, semicolons, and em dashes with confidence. You'll even be prepared to wrangle your run-on sentences and sharpen your syntax with ease. So whether you're looking for an introduction to the rules of grammar or a refresher to keep on your desk, Grammar 101 has all the answers.

The Complete Philosophy Primer-J. Frankel 2021-01-24 A comprehensive and complete primer to guide undergraduate philosophy students

The Interpretation of Dreams-Sigmund Freud 2020-04-27 Part of the bestselling Capstone Classics Series edited by Tom Butler-Bowdon, this collectible, hard-back edition of The Interpretation of Dreams provides an accessible and insightful edition of this important work of psychology Sigmund Freud's The Interpretation of Dreams introduced his ground-breaking theory of the unconscious and explored how interpreting dreams can reveal the true nature of humanity. Regarded as Freud's most significant work, this classic text helped establish the discipline of psychology and is the foundational work in the field of psychoanalysis. Highly readable and engaging, the book both provides a semi-autobiographical look into Freud's personal life - his holidays in the Alps, spending time with his children, interacting with friends and colleagues - and delves into descriptions and analyses of the dreams themselves. Freud begins with a review of literature on dreams written by a broad range of ancient and contemporary figures - concluding that science has learned little of the nature of dreams in the past several thousand years. Although the prevailing view was that dreams were merely responses to 'sensory excitation,' Freud felt that the multifaceted dimensions of dreams could not be attributed solely to physical causes. By the time Freud began writing the book he had interpreted over a thousand dreams of people with psychoses and recognised the connection between the content of dreams and a person's mental health. Among his conclusions were that a person's dreams: Prefer using recent impressions, yet also have access to early childhood memories Unify different people, places, events and sensations into one story Usually focus on small or unnoticed things rather than major events Are almost always 'wish fulfillments' which are about the self Have many layers of meaning which are often condensed into a single image The Interpretation of Dreams: The Psychology Classic is as riveting today as it was over a century ago. Anyone with interest in the workings of the unconscious mind will find this book an invaluable source of original insights and foundational scientific concepts. This edition includes an insightful Introduction by Sarah Tomley, a psychology writer and practicing psychotherapist. Tomley considers paints a picture of Freud's life and times, reveals the place of The Interpretation of Dreams in the context of Freud's other writings, and draws out the key points of the work.

The Philosophy Book for Beginners-Jane Smith 2021-09-07

Religion 101-Peter Archer 2013-11-29 Provides information about the key influences, spiritual figures, sacred stories, traditions, doctrines, and dogmas of each of the

100 Mistakes that Changed History-Bill Fawcett 2010-10-05 Collected in one volume, here are backfires and blunders that collapsed empires, crashed economies, and altered the course of the world. From the Maginot Line to the Cuban Missile Crisis, history is filled with bad moves and not-so-bright ideas that snowballed into disasters and unintended consequences. This engrossing book looks at one hundred such tipping points. Japan bombs Pearl Harbor. The Caliphs of Baghdad spend themselves into bankruptcy. The Aztecs greet the Conquistadors with open arms. Mexico invites the Americans to Texas-and the Americans never leave. And the rest is history...

1990 Census of Population- 1993

World History 101-Tom Head 2017-10-03 Uncover the mysteries of the past with this exciting, comprehensive guide on world history. History books are often filled with long descriptions, complex facts, and stories that can bore even the most enthusiastic history buffs. In World History 101 you'll skip those tedious details and focus on engaging lessons that will impress any kind of historian. From Julius Caesar and Genghis Khan to the Cold War and globalization, each section takes you on an adventure through time to discover the most important moments in history and how they shaped civilization today. With hundreds of absorbing facts and trivia throughout, World History 101 can help you learn more about the civilizations of the past and help bring history to life.

Philosophy For Dummies-Tom Morris 2011-03-10 Philosophy at its best is an activity more than a body of knowledge. In an ancient sense, done right, it is a healing art. It's intellectual self-defense. It's a form of therapy. But it's also much more. Philosophy is map-making for the soul, cartography for the human journey. It's an important navigational tool for life that too many modern people try to do without. Philosophy For Dummies is for anyone who has ever entertained a question about life and this world. In a conversational tone, the book's author - a modern-day scholar and lecturer - brings the greatest wisdom of the past into the challenges that we face now. This refreshingly different guide explains philosophical fundamentals and explores some of the strangest and deepest questions ever posed to human beings, such as How do we know anything? What does the word good mean? Are we ever really free? Do human beings have souls? Is there life after death? Is there a God? Is happiness really possible in our world? This book is chock full of all those questions you may have long wanted to think about and talk with someone about, but have never had the time or opportunity to tackle head on. Philosophy For Dummies invites you to discuss the issues you find in the guide, share perspectives, and compare thoughts and feelings with someone you respect. You'll find lots of material to mull over with your friends or spouse, including thoughts on When to doubt, and when to doubt our doubts The universal demand for evidence and proof The four dimensions of human experience Arguments for materialism Fear of the process of dying Prayers and small miracles Moral justification for allowing evil The ancient philosopher Socrates (fifth century, B.C.) thought that, when it comes to the Ultimate Questions, we all start off as dummies. But if we are humbly aware of how little we actually know, then we can really begin to learn. Philosophy For Dummies will put you on the path to wising up as you steer through the experience called life.

The Medicine Book-DK 2021-03-02 An accessible guide to more than 90 of the most important and groundbreaking milestones in the history of medicine, and the people behind them. How are illnesses diagnosed? What is cancer? Why are some pandemics so deadly? This ebook explores big questions like these, explaining the breakthroughs and discoveries that have shaped our modern-day understanding of medicine and helped us protect and promote our health. Written in plain English, The Medicine Book cuts through the jargon and is packed with pithy explanations of the most important milestones in medical history, with step-by-step diagrams and witty illustrations that untangle knotty concepts. From ancient medical practices, such as herbal medications and balancing the humours, through groundbreaking work including Jenner's experiments with cowpox, which laid the basis for vaccination, The Medicine Book offers an engaging overview of medical history across the world all the way into the 21st century with gene manipulation, immunotherapy, and robotics and telesurgery. Covering the role that therapies and drugs have played in the human quest to treat and prevent disease, the establishment of hospitals and later international medical bodies, like the WHO, and medical science's response to new challenges, such as accelerated antibiotic resistance and COVID-19, The Medicine Book explains the stories behind each milestone development. Continuing the "Big Ideas" series' trademark combination of authoritative, informative text, and bold graphics, The Medicine Book uses an innovative visual approach to make the subject accessible to everyone, whether you're a student of medicine or science, a medical professional, or an armchair expert.

Philosophy For Dummies-Martin Cohen 2010 Philosophy For Dummies is a complete crash-course in philosophical thought, covering key philosophers, philosophical history and theory and the big questions that affect us today. Tying in with standard UK curricula and including core topics such as logic, ethics and political philosophy, this impartial, expert guide cuts through the jargon to give you the facts.

Princeton Readings in Political Thought-Mitchell Cohen 2018-07-31 A thoroughly updated and substantially expanded edition of an acclaimed anthology This is a thoroughly updated and substantially expanded new edition of one of the most popular, wide-ranging, and engaging anthologies of Western political thinking, one that spans from antiquity to the twenty-first century. In addition to the majority of the pieces that appeared in the original edition, this new edition features exciting new selections from more recent thinkers who address vital contemporary issues, including identity, cosmopolitanism, global justice, and populism. Organized chronologically, the anthology brings together a fascinating array of writings—including essays, book excerpts, speeches, and other documents—that have indelibly shaped how politics and society are understood. Each chronological section and thinker is presented with a brief, lucid introduction, making this a valuable reference as well as reader. A thoroughly updated and substantially expanded edition of an acclaimed anthology of political thought Features a wide range of thinkers, including Thucydides, Plato, Aristotle, Cicero, Augustine, Aquinas, Christine de Pizan, Machiavelli, Luther, Calvin, Hobbes, Spinoza, Locke, Swift, Hume, Rousseau, Adam Smith, Jefferson, Burke, Olympe de Gouges, Wollstonecraft, Kant, Hegel, Bentham, Mill, de Toqueville, Frederick Douglass, Lincoln, Marx, Nietzsche, Lenin, John Dewey, Gaetano Mosca, Roberto Michels, Weber, Emma Goldman, Freud, Einstein, Mussolini, Arendt, Hayek, Franklin D. Roosevelt, T. H. Marshall, Orwell, Leo Strauss, de Beauvoir, Fanon, Martin Luther King Jr., Malcolm X, Havel, Fukuyama, Mitchell Cohen, Habermas, Foucault, Rawls, Nozick, Walzer, Iris Marion Young, Martha Nussbaum, Peter Singer, Amartya Sen, and Jan-Werner Müller Includes brief introductions for each thinker

Stoicism and the Art of Happiness-Donald Robertson 2018-09-06 The stoics lived a long time ago, but they had some startling insights into the human condition - insights which endure to this day. The philosophical tradition, founded in Athens by Zeno of Citium in 301 BC, endured as an active movement for almost 500 years, and contributions from dazzling minds such as Cicero, Seneca and Marcus Aurelius helped create a body of thought with an extraordinary goal - to provide a rational, healthy way of living in harmony with the nature of the universe and in respect of our relationships with each other. In many ways a precursor to Cognitive Behavioural Therapy (CBT), Stoicism provides an armamentarium of strategies and techniques for developing psychological resilience, while celebrating all in life which is beautiful and important. By learning what stoicism is, you can revolutionise your life and learn how to seize the day, live happily and be a better person. This simple, empowering book shows how to use this ancient wisdom to make practical, positive changes to your life. Using thought-provoking case studies, highlighting key ideas and things to remember and providing tools for self-assessment, it demonstrates that Stoicism is a proven, profound pathway to happiness.

The Soul of the Marionette-John Gray 2015-05-19 Compared with that of humans, the life of the marionette looks more like an enviable state of freedom In his brilliantly enjoyable and freewheeling new book, John Gray draws together the religious, philosophic, and fantastical traditions that question the very idea of human freedom. We flatter ourselves about the nature of free will and yet the most enormous forces—logical, physical, metaphysical—constrain our every action. Many writers and intellectuals have always understood this, but instead of embracing our condition we battle against it, with everyone from world conquerors to modern scientists dreaming of a "human dominion" almost comically at odds with our true state. Filled with wonderful examples and drawing on the widest possible reading (from the Gnostics to Philip K. Dick), The Soul of the Marionette is a stimulating and engaging meditation on everything from cybernetics to the fairground marionettes of the title.

The Little Book of Philosophy-Rachel Poulton 2021-10-05 If you want to know your Socrates from your Sartre and your Confucius from your Kant, strap in for this whirlwind tour of the highlights of philosophy. Including accessible primers on: The early Ancient Greek philosophers and the 'big three': Socrates, Plato and Aristotle Key schools of philosophy and their impact on modern life Insights into the main questions philosophers have explored over the years: Who am I? What is the meaning of life? Do I have free will? Practical applications for the theories of Descartes, Kant, Wollstonecraft, Marx, Nietzsche and many more. This illuminating little book will introduce you to the key thinkers, themes and theories you need to know to understand how human ideas have sculpted the world we live in and the way we think today.

101 Puzzles in Thought and Logic-Clarence Raymond Wylie 1957 Solve murder problems and robberies, see which fishermen are liars and how a blind man can identify color ? purely by reasoning! Hours of mind-strengthening entertainment.

Ethics in a Nutshell-Matt Deaton 2017-03-01 Featuring YouTube lectures by the author on each chapter, a concise introduction to ethics by professor Matt Deaton.

Socialism 101-Kathleen Sears 2019-09-03 Socialism 101 is a comprehensive and accessible guide to the historical and modern applications of socialism. In today's political climate, more and more presidential candidates are espousing socialist—or democratic socialist—policies. Once associated with oppression, socialism is now a current topic of conversation with everyday Americans, including policies like taxing the rich and healthcare for all. But what exactly is socialism and why does it spark such an intense debate? Socialism 101 provides an easy-to-understand, unbiased overview to the nearly 300-year-old origins of this mode of government, its complex history, basic constructs, modern-day interpretations, key figures in its development, and up-to-date concepts and policies in today's world. As capitalism has become less appealing and socialism experiences a surge in popularity, the need for clarification of what it means has never been more necessary than now.

The Little Book of History-DK 2021-05-11 Exploring more than 60 of the most important events in world history, this ebook is the perfect introduction to the past, and ideal for summer reads. From the birth of Athenian democracy to the rise and fall of Rome and from the American Revolution to the landing beaches of World War II, The Little Book of History brings the past to life. Includes infographics and flowcharts that explain complex concepts in a simple but exciting way, this ebook examines the events that shaped our past. Charting the human era from the beginnings of civilization to the modern culture of today this ebook makes the perfect introduction to the human story. One of a series of new, compact sister titles to DK's "Big Ideas" series, The Little Book of History offers you the same combination of clear text and hard-working infographics perfect for vacation reading.

The History of Philosophy-A. C. Grayling 2021-02-02 “A witty, learned, authoritative survey of philosophical thought.” —The New York Times Book Review The first authoritative and accessible single-volume history of philosophy to cover both Western and Eastern traditions, from one of the world’s most eminent thinkers The story of philosophy is an epic tale, spanning civilizations and continents. It explores some of the most creative minds in history. But not since the long-popular classic by Bertrand Russell, A History of Western Philosophy, published in 1945, has there been a comprehensive and entertaining single-volume history of this great, intellectual, world-shaping journey. With characteristic clarity and elegance, A. C. Grayling takes the reader from the age of the Buddha, Confucius, and Socrates through Christianity’s capture of the European mind, from the Renaissance and Enlightenment on to Mill, Nietzsche, Sartre and, finally, philosophy today. Surveying in tandem the great philosophical traditions of India, China, and the Persian-Arabic world, and astonishing in its range and accessibility, Grayling’s The History of Philosophy is destined to be a landmark work.

Mythology 101-Kathleen Sears 2013-12-03 Explore the fascinating myths of Greek and Roman civilizations! The tales of gods and heroes are often turned into tedious discourse that even Ovid would reject. This easy-to-read guide cuts out the boring details, and instead, provides you with a thrilling lesson in classic mythology. From the heights of Mt. Olympus to the depths of the Underworld, this book takes you on an unforgettable journey through all the major myths born in ancient Greece and Rome, such as Achilles's involvement in the Trojan War; Pluto's kidnapping of the beautiful Proserpina; and the slaying of Medusa by Perseus, the heroic demi-god. You'll also learn all about the wonders of the world as well as the greatest creatures ever recorded in history. Like Charon navigating the River of Wailing, Mythology 101 will guide you through the most glorious (and completely terrifying) tales the ancient world has to offer.

Psychology 101-Adrian Furnham 2020-12-10 Psychologists have always shone a torch, and often a spotlight, into many dark corners of the human mind. They study everything, from art preferences to altruism, coaching to criminality, jokes and humour to justice and honesty, as well as sex differences, schizophrenia and sociopathy. Psychology can offer clear descriptions and explanations for all sort of phenomena. More importantly, psychological research can improve lives in a multitude of ways; many applied psychologists - e.g. clinical, educational, counselling and work psychologists - have the primary aim of making people more happy and better able to identify and realise their full potential. Psychology 101 offers bite-size articles of psychological science from Adrian Furnham, a seasoned psychologist with a broad range of expertise. This book is the essential guide for anyone with an interest - either academic, professional or general - in demystifying and understanding the fascinating world of psychological history, theories, issues and beliefs.

How to Know Everything-Elke Wiss 2021-04-15 The international bestseller that will sharpen your mind, broaden your perspective and transform your relationships. WHY ARE WE SO BAD AT ASKING GOOD QUESTIONS? In an increasingly polarized world, asking better questions in our daily and working lives is a radical shortcut to personal and professional success. It can create space for us to rethink our positions, find answers together, and even change our minds for the better. Drawing on the lessons of Socrates and other great thinkers, practical philosopher Elke Wiss lays out an essential toolkit to help you:
· Transform debates into dialogues
· Embrace your doubts like a true philosopher
· Ditch your ego and become an active listener
· Discover an open and curious Socratic attitude
· Learn Sherlock Holmes's powers of observation
· Open conversations up or dig down deeper with key question types
· Explore thorny issues and avoid classic question pitfalls
· Face your fear of asking and start connecting The right questions can unlock the answers to anything - and help you know everything, without being a know-it-all. WHAT READERS ARE SAYING: 'Read this book, it will enrich your life!' 'A disarming and urgent book in today's world!' 'A great book for anyone who wants to better understand themselves and others!' 'Everyone should read this. What fascinating conversations we would have then!' 'A clear and practical book for brave thinkers who want to start having better, deeper conversations.' 'I found this book so valuable! A real enrichment to my daily life.' 'What a gem this book is!' 'Highly recommended for anyone who usually gets bogged down in discussions, quarrels, disagreements that lead to nothing.' 'A ray of hope in a time of dispute and polarization.' 'Elke Wiss makes practical philosophy manageable for everyone. A must read!' 'A cheerful, unconventional book.' 'An inspiring, easy-to-read book, full of practical exercises to get yourself started right away. For me it's a must read!' 'Its powerful message urges us to connect more with each other and with ourselves.' 'Some books can actually change your worldview or your daily actions, and as far as I'm concerned this is one of them. I recommend it to everyone.'

History of Western Philosophy-Bertrand Russell 2013-04-15 Now in a special gift edition, and featuring a brand new foreword by Anthony Gottlieb, this is a dazzlingly unique exploration of the works of significant philosophers throughout the ages and a definitive must-have title that deserves a revered place on every

bookshelf.

Think-Simon Blackburn 1999-08-05 This is a book about the big questions in life: knowledge, consciousness, fate, God, truth, goodness, justice. It is for anyone who believes there are big questions out there, but does not know how to approach them. Think sets out to explain what they are and why they are important. Simon Blackburn begins by putting forward a convincing case for the study of philosophy and goes on to give the reader a sense of how the great historical figures such as Descartes, Hume, Kant, and Wittgenstein have approached its central themes. Each chapter explains a major issue, and gives the reader a self-contained guide through

the problems that philosophers have studied. The large scope of topics covered range from scepticism, the self, mind and body, and freedom to ethics and the arguments surrounding the existence of God. Lively and approachable, this book is ideal for all those who want to learn how the basic techniques of thinking shape our existence.
