The Social Construction of Gender | Introduction to Sociology
Social Constructionism. The social construction of gender comes out of the general school of thought entitled social constructionism. Social constructionism proposes that everything people “know” or see as “reality” is partially, if not entirely, socially situated.

Social Constructions of Reality | Introduction to Sociology

The Social Construction of Gender - Applied Social Psychology
Oct 03, 2011 - It is common for the children’s programs to emphasize the role of the male “hero” who saves the weak female. Children interpret these messages as “real life” which shapes their reality, behavior, and expectations of their gender role. However, the social construction of gender does not happen only once and does not stop with children.
